

## Division Avenue Bus Rapid Transit (BRT)

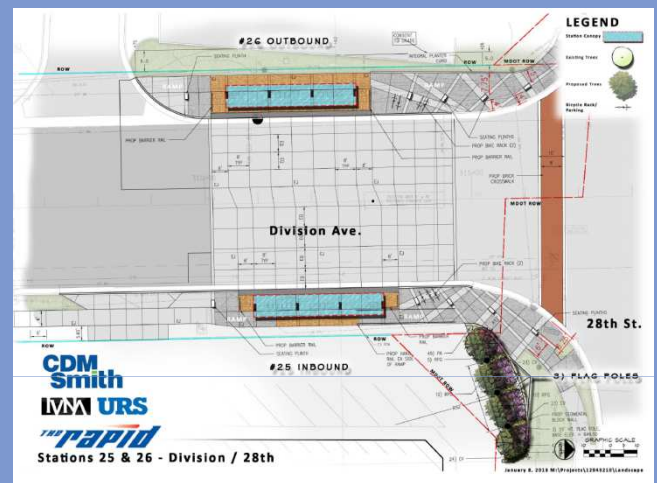

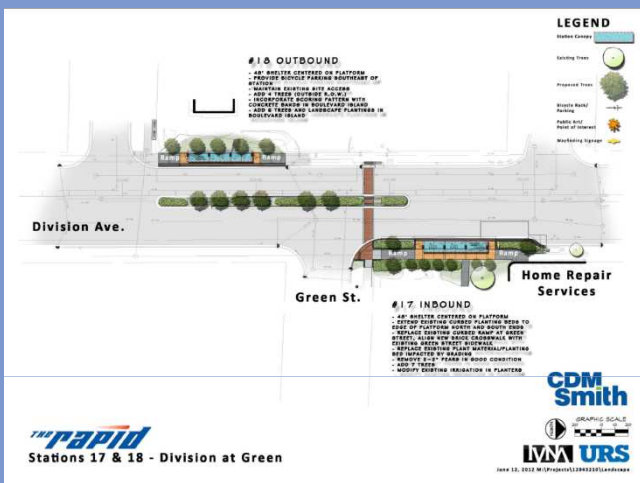

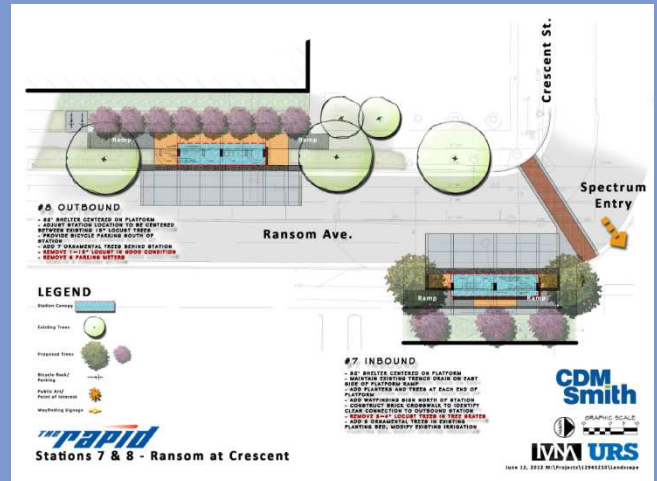

- Express transit service designed to mimic light rail
- Employs technology and simple infrastructure for maximum efficiency and travel time savings
- Traffic signal priority, express boarding, dedicated lanes at peak travel times
- Construction cost: approximately 1/10 of a light rail system
- Successful operations in Cleveland, OH; Eugene, OR; Las Vegas, NV; Los Angeles, CA; Pittsburgh, PA
- Numerous successful systems around the world

### Station Amenities Include:

- Fare Vending Machines
- Emergency Phone
- Camera Surveillance
- Sidewalk Snowmelt
- Seating
- Bike Parking (most stations)
- Level Boarding
- Next Bus arrival Info
- Route and Schedule Info
- Column Lighting

**Construction Starts April 2013  
Service Begins August 2014**

The Division Avenue Bus Rapid Transit (BRT) Project is the result of over 10 years of planning and public input. As construction begins and operations follow, The Rapid is committed to being as helpful of a community partner as possible. Please feel free to contact our team at any time with questions, concerns, and suggestions. We appreciate your support and patience.
