

THE

COST OF RUNNING

Brought to you by:

A BIG RIG

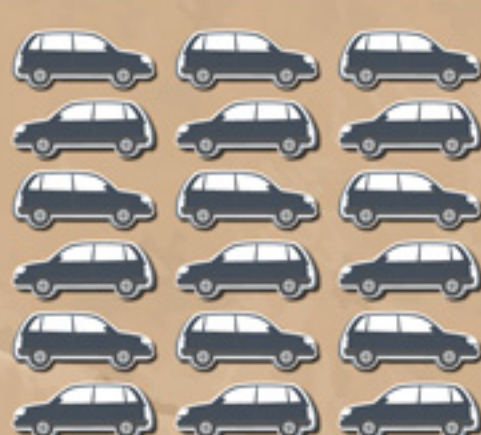

Imagine

FILLING UP

18 mid-sized

CARS EVERY TIME you stopped at the pump!

18

=

That's how much it takes to fill a Big Rig's two, 150-gallon tanks.

Long Haul Drivers
Average Miles/Year:

100,000

to

110,000

=

The cost of running
ONE BIG RIG
in the United States
could be more than

\$185,000

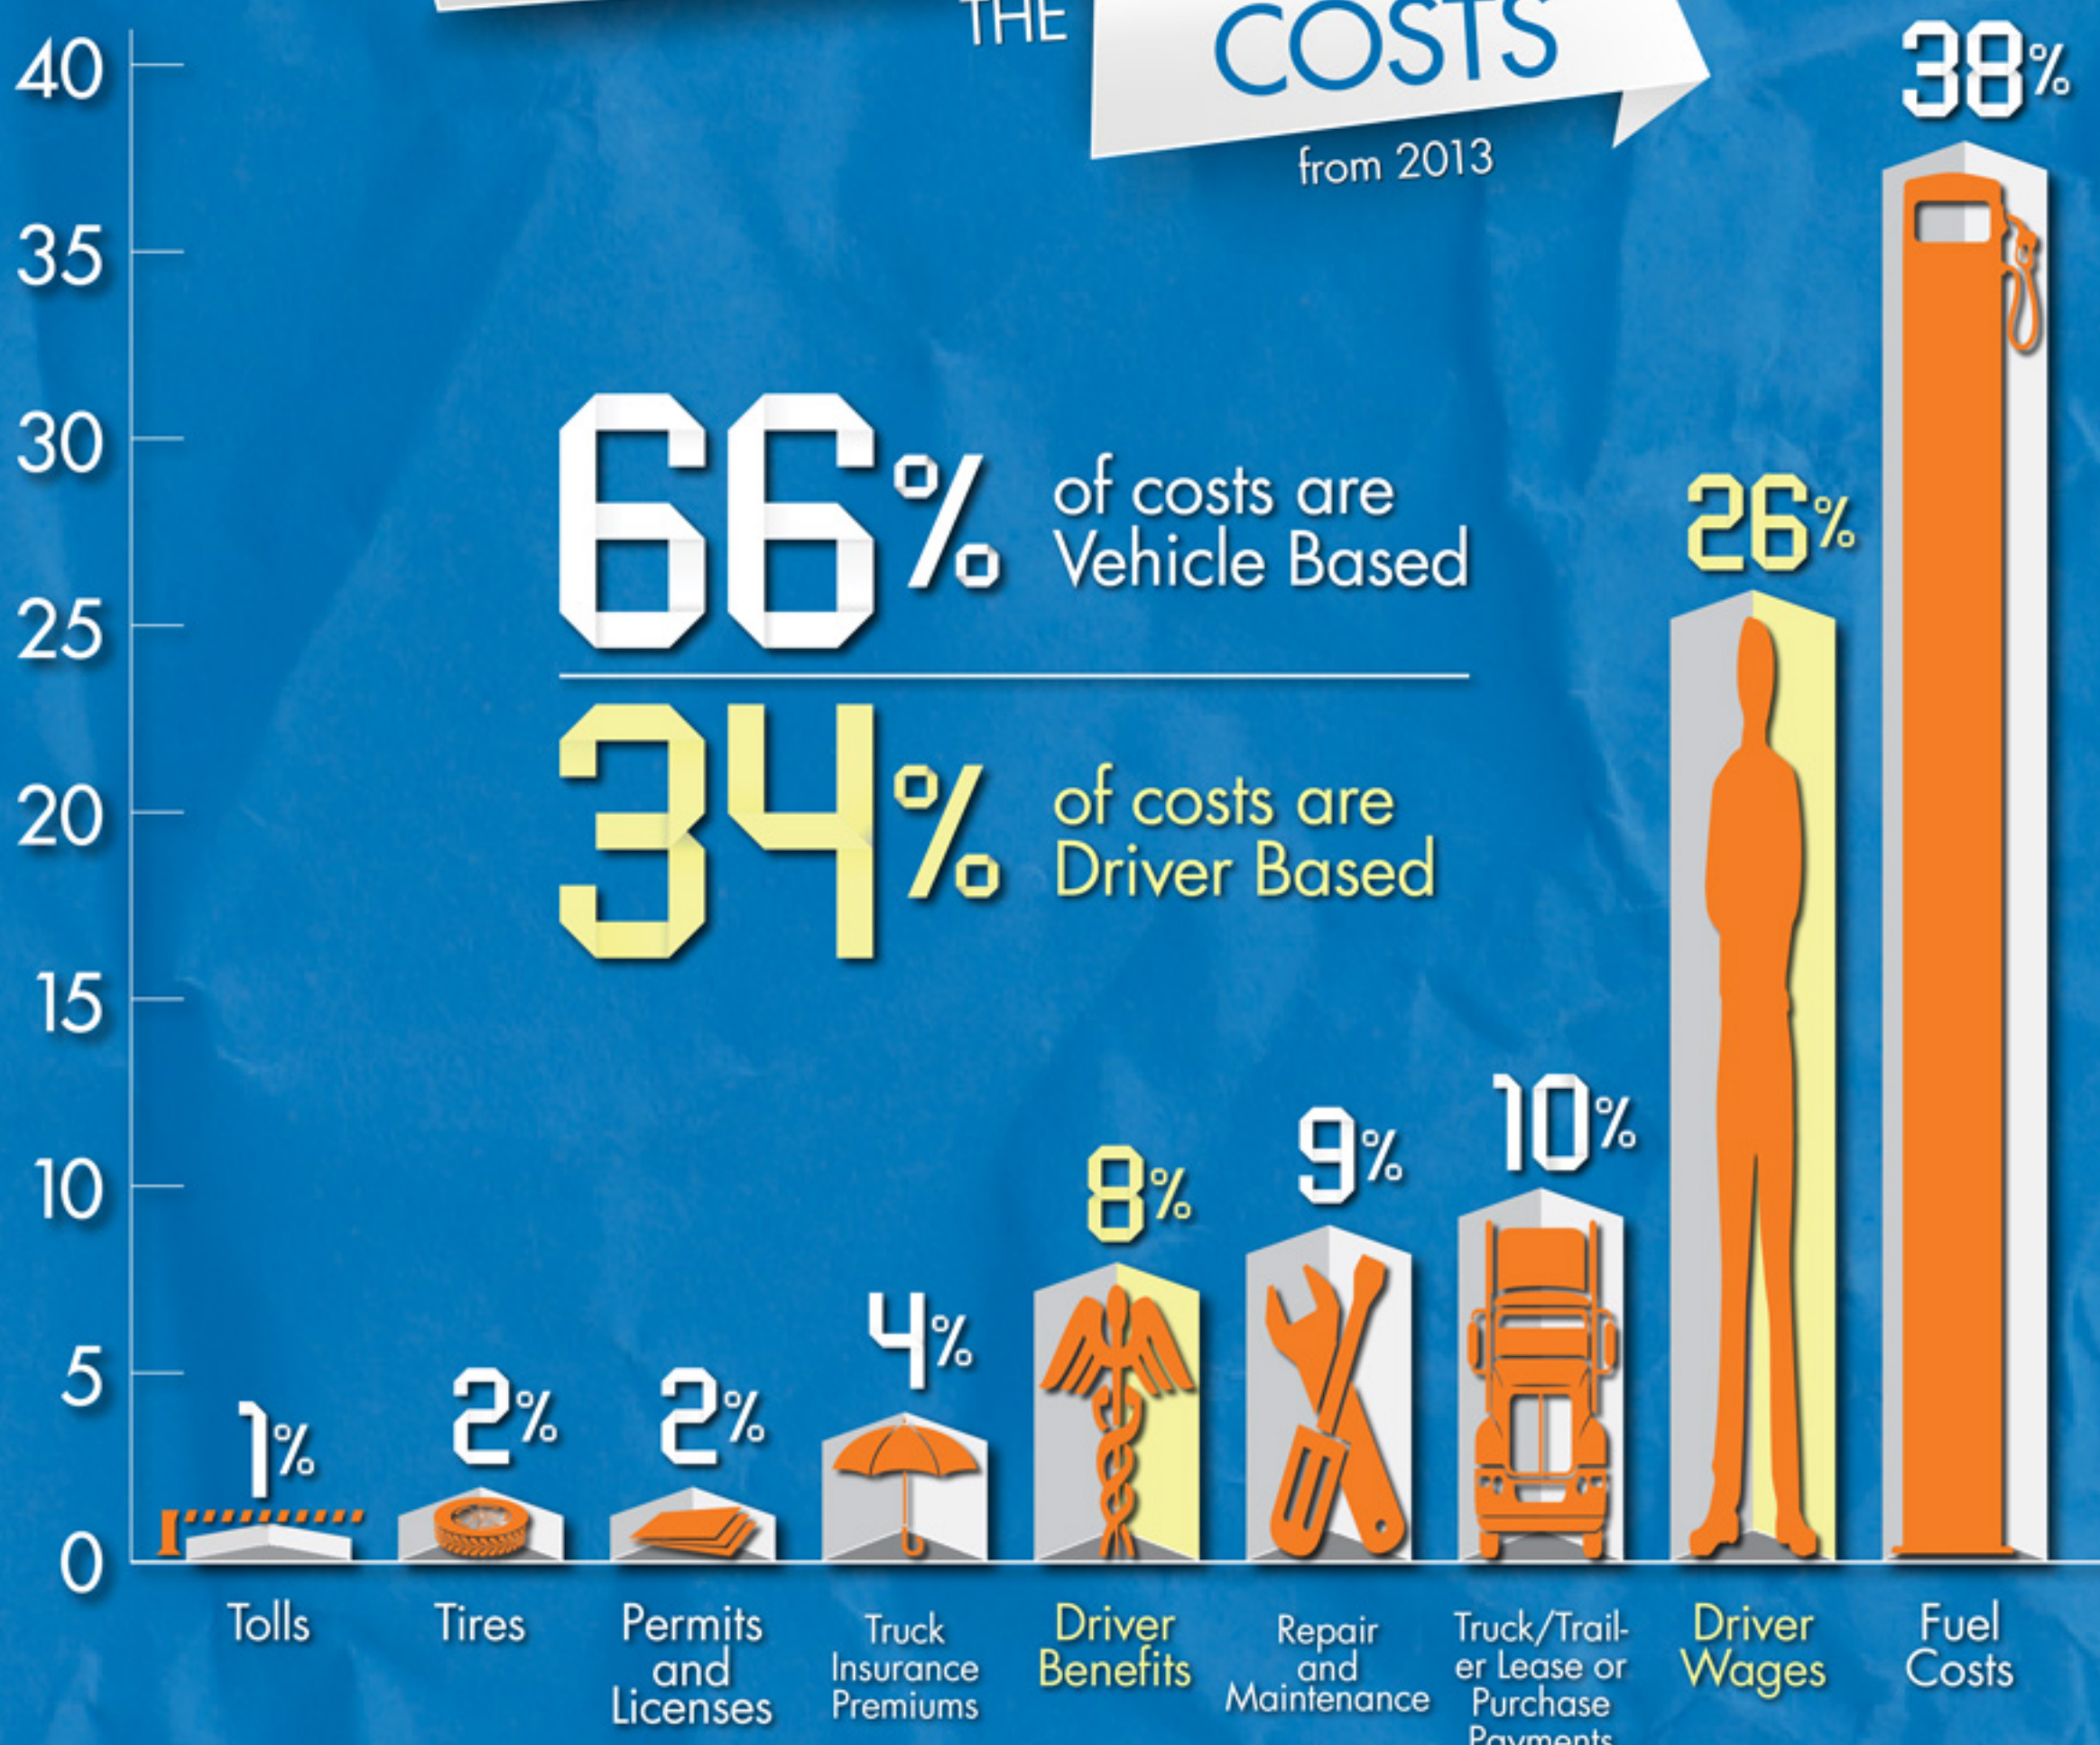

per year.

COMPARING

THE

COSTS

from 2013
