RUHOF

The Ruhof ATP Complete System is a quick, easy to use and reliable method to check for microbial contamination, helping to lower the risk of HAIs to patients and staff. ATP Complete can be used throughout your healthcare facility where rapid detection of contamination is crucial. In just 15 seconds ATP Complete verifies the efficacy of cleaning protocols on all non-critical surfaces, surgical instruments, and endoscopes.

See Ruhof at APIC booth #315

Visit www.ksrleads.com/?906hp-054

MICRO-SCIENTIFIC

Opti-Cide MAX Disinfectant Cleaner kills tested organisms in 30 seconds to 1 minute, 2 minute TB. Kills ESKAPE and ESKAPE MDRO organisms in 1 minute. Bactericidal, Fungicidal, Virucidal, and Tuberculocidal. Safe on clinical surfaces such as stainless steel, and plastics. Cleans better than high alcohol formulas and won't cloud plastics.

Visit www.ksrleads.com/?906hp-050

RUHOF

Prepzyme Forever Wet with Bio-Clean Technology is a multi-tiered enzymatic humectant spray which promotes long lasting moisture retention of soiled instruments and scopes, helping to prevent the adhesion of bio-burden. This unique formulation gently coats instruments for up to 72 hours, making it an ideal pre-cleaner for soiled instruments during transport. Perfect for use in Operating Rooms, Endoscopy Suites, Outpatient Surgery, Dental and other departments where instruments are held before being transported to decontamination.

Visit www.ksrleads.com/?906hp-046

HEINE

HEINE's **EasyClean** offers an innovative Laryngoscope that is 100% waterproof, and has the first and only LED handle compatible with all sterilization processes. No need for disassembly/reassembly of the handle; reprocessing in accordance with all standards is particularly safe and efficient. The EasyClean was created to provide the best performance, easy reprocessing, and safety for patients.

STERILIZ

Only the RD UVC System delivers the proof you demand.

Manual cleaning simply isn't enough to make sure your patient rooms and equipment are their cleanest and ready for the next patient.

With the RD UVC System, you can add a new level of disinfection, and do the utmost to prevent the transmission of pathogenic organisms in your hospital. The RD UVC System is the ONLY UVC system on the market that can confirm that the actual, required UVC dose is delivered to targeted areas, thereby delivering the disinfection proof that you demand. Does your UVC System deliver the proof? RDUVC.com

Flexible Inspection Scope

Flexible Inspection Scopes are the perfect tool to inspect the internal channels of items for residual soil or damage. The Starter Kit software is included with each scope and operates on Windows PC's. The computer and software powers the Flexible Inspection Scopes and allows for viewing, recording and documentation.

HALOSIL

Raising the Standard for Whole Room Disinfection
The Halo Disinfection System elevates disinfection standards for complex environments containing infection-causing pathogens. EPA-validated to kill 99.9999% of C. difficile spores, along with a broad spectrum of pathogens, Halosil's solution leverages a proprietary hydrogen peroxide-based formula and proven line of foggers, bringing greater efficacy and affordability to whole room disinfection.

CONTEC

PREMIRA Disposable Microfiber Mop Pads

PREMIRA Disposable Microfiber Pads provide superior dirt and debris removal compared to other laundered microfiber mops. PREMIRA Pads help eliminate cross-contamination risks and are designed to be compatible with most existing hardware, allowing them to fit into any facility's supply chain and cleaning protocols.
