

HEALTHCARE PURCHASING NEWS®

CLINICAL INTELLIGENCE FOR SUPPLY CHAIN LEADERSHIP

SEPTEMBER 2019 ISSUE PREVIEW

FEATURE STORIES:

Edit Close: 7/22/2019 • Ad Close: 8/6/2019

BAR CODING

HPN examines the most cost-effective and efficient applications of 1-D, 2-D and 3-D line-of-sight tracking of products, people and equipment.

SPD MAKEOVERS

The need to update, makeover or include SPD accommodations into structure plans early is a must-do. **HPN** showcases renovation success stories and cutting-edge products for the SPD.

ROOM DECONTAMINATION

Healthcare organizations are increasingly adopting mobile decontamination equipment to kill microorganisms and pathogens. This feature will look at the variety of technologies available as the experts weigh in on how to choose, use and better understand today's disinfection systems.

WOUND & SKIN CARE

Research and technology has provided some of the most innovative solutions for preventing and treating wounds and other skin infections. The latest, most effective products are featured in this annual update, along with useful tips and insights from leading experts in the field.

RFID

With high technology comes high desire by hackers to figure out how to disrupt coding and functionality – just because. **HPN** examines how healthcare organizations can protect their RFID systems from intrusion and tampering.

OCTOBER FEATURE STORIES:

Edit Close: 8/20/2019 • Ad Close: 9/5/2019

FUTURE-READY SUPPLY CHAINS

HPN continues to explore how the latest concepts and ideas, technology and thinking promise to propel the profession and industry to greater heights of performance and service.

INSTRUMENT STORAGE & CONTAINERS

Sterile processing professionals have a wide variety of options available for keeping instruments stored safely both during processing and after. The feature explores what the pros are using and why.

PATIENT MONITORING

Patients trust their caregivers will know exactly when care and treatment is needed—whether it's before, during or after a surgical procedure. We'll look at some of the cutting-edge patient-monitoring equipment that clinicians are using (or wanting) to do it successfully.

HYGIENE PRACTICES AND ACCOUNTABILITY

Eliminating or reducing HAIs requires a smart combination of products and consistent adherence to best practices. Experts will share the many approaches and solutions that infection prevention teams use to fight germs and prevent disease.

STORAGE

For secure product storage, clinicians can choose between three options: Automated (closed) supply cabinets, open shelving with electronic tracking capabilities and electronic tracking technology affixed to existing shelving. **HPN** highlights the pros and cons of each option.
