DEVICE RECALLS & WARRANTY RESOLUTIONS

Track-and-trace capabilities represent only part of the equation as **HPN** examines additional parts of the process to benefit patient and facility.

QUALITY/STERILITY ASSURANCE

HPN explores the spectrum of quality/sterility assurance best practices – from the easiest and most expedient to implement to the most difficult but highly valuable.

PATIENT POSITIONING & PRESSURE MANAGEMENT

HPN shows how using the right products and procedures to move patients routinely prevents pressure ulcers from developing and prolonging lengths of stay.

CATHETERS & INFUSION PUMPS

HPN highlights some of the more notable and useful processes and products designed to prevent infections in patients via these invasive devices.

STOREROOM/WAREHOUSE DESIGN

Providers and suppliers share tips and tricks on how to make effective and efficient use of space and business opportunities with their existing facility footprint.

PURCHASED SERVICES

HPN examines how this contractual designation promises to change supply chain department designations and influence going forward.

VISUAL INSPECTIONS

HPN explores how SPD departments can use this technique to contribute to high-quality cleaning, disinfection and sterilization performance.

OR TURNOVER & SCHEDULING

Operating rooms and surgical suites rely on consistent and efficient facility management to deliver optimal patient outcomes without sacrificing patient and worker safety. **HPN** features some of the notable practices and products making this happen.

IP-EVS PARTNERSHIPS

HPN shares examples, tips and tools from the pros on how these two departments work together to keep facilities clean to prevent exposure to infectious organisms.

SUPPLY CHAIN & IT COLLABORATION

Tracking product development and supply transactions to forecasting product consumption and procedural demand illustrate the need for these two departments to team up.
