COVID-19 CHANGEMAKERS

HPN shares examples from providers and suppliers making a difference as the world navigates through the meandering pandemic, shining a spotlight on process improvement for product availability.

REPROCESSING WORKFLOW

HPN outlines how SPD can improve sterile processing procedures and tasks to optimize the safety, quality and efficiency of its output to the clinical areas.

SHARPS SAFETY

It's been more than two decades now since a famous report on building a safer health system was released against the backdrop of sharps safety regulations. **HPN** explores how far the healthcare industry has progressed since then.

ENVIRONMENTAL SERVICES GUIDE

Deep cleaning techniques during a pandemic – **HPN** explores best practices, standard protocols and useful tips on how, what, when and where to rid surfaces of viral microbes.

WORKSTATIONS

HPN highlights some of the emerging developments in improving workstation user-friendliness and effectiveness, including automation, design and ergonomics.
