A screenshot of the Microgrid Knowledge website. The top navigation bar includes links for Markets & Policy, Players, Microgrids, Infrastructure, Distributed Energy, Resources, Conference, and White Papers. The main content area features a large article titled 'Solar Microgrid Shows Future of Humanitarian Aid, Powers COVID Clinic for Asylum Seekers at Mexican Border' with a photo of a tented clinic. To the right, there's a section for 'INDUSTRY PERSPECTIVES' with an article 'How Will Delay Related to Covid-19 Affect California Microgrid Legislation?' and a photo of Peter Asmus. Below the main article, there are two smaller articles: 'How to Finance Microgrids with Opportunity Zones' and 'Free Virtual Microgrid Event to Feature 50 Expert Speakers June 1-3'. At the bottom right, there's a 'NEWSLETTERS' section with a sign-up form and a 'SIGN ME UP' button.

Rapidly Growing Microgrid Industry

HOW FAST WILL GLOBAL MICROGRID MARKET GROW?

Annual Microgrid Capacity and Spending by Region, Base Scenario, World Markets: 2018-2027

(Source: Navigant Research)

16 / ©2018 NAVIGANT CONSULTING, INC. ALL RIGHTS RESERVED

NAVIGANT
RESEARCH

- Moving towards a \$30B+ global market size by 2027 (Already \$4B+ a year)
- Nearly 10x market size in coming decade
- North America is a leading market today, but Asia/Pacific will quickly eclipse others as electrification continues
- Overall costs for installed microgrids have dropped more than 30% in recent years
